

## NICOLAS MAQUET

### HEAD OF TECHNOLOGY

Nicolas sets the direction of Movio's forward thinking technology stack, that empowers our developers to push boundaries and innovate every day.

### BACKGROUND

Prior to joining Movio, Nicolas was a Security Engineer at IT company Atos in Belgium. He previously worked at universities in Brussels, teaching classes in algorithm and compiler theory whilst completing a degree and PhD in Computer Science at the University of Brussels.

Having relocated to New Zealand in 2014, he originally joined Movio as a Software Engineer. Since then, Nicolas has taken on the role of Head of Technology, making long-term decisions regarding the company's technology stack, and taking responsibility of the culture and practice of software engineering at Movio. He is passionate about pushing the boundaries of innovation every day to create products that are seamless and insightful.

What gets me out of bed every day is to solve the limitless technological challenges that Movio faces in shaping the movie marketing industry.

### SPEAKING ENGAGEMENTS

Nicolas is a frequent speaking guest on the Auckland tech event circuit at meet-ups such as Golang, Node.js and Javascript.

### ABOUT MOVIO

With 56% of the cinema screens of the Large Cinema Circuit (cinemas with over 20 screens) currently engaged in North America as well as 29% globally, Movio maintains real-time, authoritative data on customer transactions for many of the world's biggest cinema chains and captures the behavior of millions of active moviegoers worldwide.
